My dear Chum:-

I was very sorry indeed to hear (when I called last night) that you had fled from city like that. But it may be all for the best. You must apply for an agrotat standing before the close of the examination. The latin was a little harder than I really enjoyed but if the markers are very very easy I might get enough marks. I hope you are not sick and that you enjoy yourself on the way to the West. You need have no regrets for the exams for you did an honest year's work. We have Geometry tomorrow morn hoping it will be easy I remain yours
